TELOSA™
SOFTWARE

A Team of
Trusted Advisors.

Not an Army of Salespeople.

Exceed! by Telosa - any place, any time.

With Exceed! Everywhere application hosting, you can have access to Exceed! Premier or Exceed! Basic from any standard PC or Mac web browser.

- **Cost Efficient** - Exceed! is upgraded, maintained and supported by Telosa, so there's no need to invest in network infrastructure. If you choose the lease option, there are no up-front investment costs and ongoing costs are predictable.
- **Accessible** - Since the software is web-based, Exceed! Everywhere is ideal for organizations with a distributed workforce. Users can log into Exceed! safely and securely from wherever they access the internet.
- **Secure** - With world-class support, stand-by power and up-to-date security infrastructure, you can rest assured that your data is safe. Your data is backed up daily and network redundancies ensure continuous service.
- **Low Risk** - With no up-front investment or long-term commitment, the subscription-based option minimizes the need for a prolonged, in-depth system search and evaluation process.

Option 1: Remote Hosting (available for both Exceed! *Premier* and Exceed! *Basic*)

If you need remote, secure access to constituent data and have already purchased Exceed! or are ready to purchase it, we offer a Remote Hosting option that would allow you and your staff to access your data securely via the internet. A small per user monthly fee applies for the hosting service. If you pay the hosting service fee in advance for one year you will receive one month free. Or, if you prefer, you can pay this fee quarterly.

Option 2: Lease Option: Exceed! *Everywhere*

If you are not ready to pay full price for Exceed! *Premier*, Telosa offers the option to lease our software. For a low monthly subscription fee, Exceed! Everywhere enables your users to access data from anywhere in the world. The monthly per user fee includes Exceed! *Premier*, access to the full Microsoft Office Suite, as well as automatic daily database backups, and Exceed! *Premier* revisions and upgrades as they are released. Best yet, the monthly subscription fee may go towards a future purchase of Exceed! software, should you choose to do so.
